Stay Balanced in Style.

The promise we make to every guest means they can count on us for an inspiring stay, reflective of the balance they have consciously cultivated in their lives. From our energising inspired-by-nature design to our curated sleep experience, we're here to help them feel well-rested and ready to discover all over again.

Design Direction

Inspired by Nature

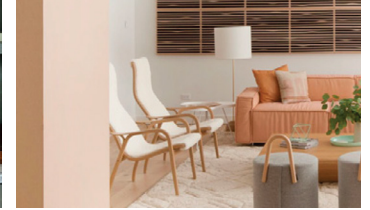

Sleep's design is Inspired by Nature, balancing a calming restorative ambience with uplifting energy. This enhances our guests' sense of escape, and ensures they feel uplifted and well-rested, supported by a great nights' sleep.

General styling: Simplicity with feature materials used in a considered way to obtain maximum impact.

Uniformity of tone: Physical representation of natural environment - tactile, warm, muted.

Creating filters: Starting with the interior base layer, built up with 'style' and 'graphic' layers.
